Dear Colleague:

The National Information Centre of Earthquake Engineering (NICEE) has been actively spreading awareness and information with a view to reduce earthquake disasters. In addition to its active web site, a rich library of earthquake engineering literature and facilitation of its usage, NICEE has undertaken a number of innovative activities: literature review workshops for postgraduate students and faculty of engineering, e-conferences, publication of monographs, translation of literature of mass appeal, distribution of literature free of charge, etc.

NICEE works on a very low budget using the interest income of an endowment corpus. It gets no annual budget from any source, but tries to supplement its resources by seeking funds from different agencies for specific activities wherever possible.

With fall in the interest rates (and hence income from endowment corpus) and with continually growing activities of NICEE, the support of its users and well-wishers is crucial for NICEE to maintain its pace of activities. We therefore request all users and well-wishers to consider donating some amount, small or large. It may be added here that a large number of individuals contributing small amounts not only adds up to a large sum, but also is an indicator of the confidence that its users place in NICEE. Therefore, a donation of Rs 1,000/- will be as much welcomed as a donation of Rs 1,00,000/-.

Amount thus raised will be added to the corpus of the NICEE endowment. All donations from within India are 100% tax deductible under section 80G of Indian Income Tax. Donors in the US can avail 100% tax deduction by routing the donations through IIT Kanpur Foundation in the United States. You may kindly use the enclosed proforma containing information for sending the donations.

Please help NICEE continue to move forward on the road to earthquake safety and disaster mitigation in the lives of the huge Indian populations that face seismic risk.

Thanking you,

Yours sincerely,

Sudhir K Jain  
Coordinator, NICEE
